VOL. XXIV. No. 78. BOSTON, MASS., WEDNESDAY, MAY 3, 1905 PRICE THREE CENTS.

ALUMNI MEETING.

Proposed Alliance With Harvard to be Discussed.

A meeting of all former students of Technology will be held in Huntington Hall on Thursday, May 4, at 7.30 P.M., at which President Pritchett, Dean Burton, Mr. E. S. Draper, Col. T. L. Livermore, Messrs. J. R. Freeman and J. P. Munroe will present the various phases of the proposed agreement. In order to secure a complete presentation of the case, all the Alumni have been invited to transmit to Prof. A. G. Robbins, Secretary of the Alumni Association, before May 3, any questions regarding the proposed agreement which they would like to have answered. These questions will be presented to the speakers in advance of the meeting. It is the conviction of the Executive Committee of the Alumni Association, that it will not be for the best interests of the Institute to have a general discussion from the floor, or to have any formal action taken at this meeting; and the committee trusts that it may be supported in this position. Tickets of admission have been mailed to all the Alumni.

TECHNOLOGY EXHIBIT.

Technology will send to the Portland (Oregon) Fair practically the same exhibit that won six prizes at the St. Louis Fair last year. The exhibit will be placed in a prominent position on the large landing of the main staircase of the Massachusetts State Building.

Members of the Architectural Department are at work on the plan of arrangement.

Besides the album containing views of the buildings and laboratories of the Institute, there will be a special album, dedicated to student activities, with pictures of Field Day, the various athletic teams, etc.

CRIMINAL NEGLIGENCE.

The Institute nearly lost two of its most capable instructors, Messrs. Burrison and Foljambe, last Monday, when some one in the Freehand Drawing Room allowed a heavy casting to fall on the glass floor light directly above Mr. Burrison's desk. The casting crashed through the glass but fortunately caught on a cross beam, where it hung long enough for those above to grab it. The heavy inch and a quarter glass, however, caused sufficient damages, cutting Mr. Burrison, and scaring up the desk and floor about him to quite an extent.

BRITISH EMPIRE ASSOCIATION.

Dinner at the Tech Union.

A meeting of the British Empire Association, held at the Tech Union, Tuesday evening, May 2, was attended by thirty members. The men showed great patriotism and loyalty to their motherland as was demonstrated by the enthusiasm and interest shown in the gathering, as well as by a large English flag unfurled at one end of the Union.

Selskar Gunn, President of the Association, presided at the dinner. President Pritchett, Dean Burton and Mr. O. F. Wells each spoke to the Association, complimenting it on the excellent purpose for which it had been so wisely founded. Mr. B. Heaton, of India, who is at present studying technical education in America, was one of the guests of the evening and gave an interesting talk to his fellow-countrymen.

The annual meeting and election of officers will be held sometime in the middle of May.

HARVARD—YALE DEBATE.

Through the courtesy of the Harvard Debating Society the Technology Civic Club has at its disposal a number of seats for the Harvard-Yale debate. It is the intention of the debating society not to confine the interests in the annual debate merely to Harvard men. Invitations have therefore been sent out to Wellesley, N. E. C., Boston University and other schools. The debate will be held Friday evening at 8 P.M. in Sanders Theatre, Cambridge. The question is: Resolved, That a commission be given power to fix railroad rates. The Civic Club has had seats reserved and will attend in a body. Any student wishing to attend the debate should leave his name at the Cage for R. E. Bell as soon as possible.

1907 vs. ROXBURY LATIN SCHOOL.

The game between 1907 and Roxbury Latin Scoool at Technology Field yesterday, resulted in the defeat of 1907 by the score of 10 to 4 The most sensational play of the game was the triple play by Roxbury in the first inning. The attendance was one hundred.

CONSOLATION GAMES.

The consolation games will be held at Technology Field, tomorrow at 4 P.M. All men are eligible to enter who have never won prizes in competition. The prizes to winners will be very pretty, and it is every man's duty to enter and try for them.

Mr. Willis Ranney, '06, will assume the duties of Managing Editor of THE TECH for the remainder of the term.

We print in another column a suggestion that the Sophomore Class be represented in an informal way on the *Technique* Board, in order that more continuity of organization may be brought about.

About a Suggestion.

There are two difficulties which render this proposed election of one or two under classmen inadvisable. First, the preeminence which these men might possess in the Electorial Committee, would destroy to a certain extent the function of that body by introducting a temptation toward dictation of policy. Second, even should the first objection be insufficient, with the right men chosen, it would be very difficult in the latter part of the Freshman year to make such a wise choice.

The last Hare and Hound chase of the season will be held on Saturday, from Wellesley. It is hoped that all the runners will turn out and make this the largest and best run of the year. The party will leave the Trinity Place Station at 2.07 P.M. Round trip 30 cents.

The donations which are being used for the erection of the new Harvard Medical School buildings are these: $1,135,000 from Mr. J. P. Morgan, $250,000 from Mrs. C. P. Huntington, $250,000 from Mr. David Sears. The endowment of the school consists of $1,000,000 given by John D. Rockefeller and nearly a million from other sources. The new buildings will be ready for use in September, 1905.

Bulletin No. 1, issued by the Northwestern Alumni Association is strong evidence of the energy and liveness of Tech's graduates in the Northwest.

COMMUNICATION.

The Editors do not hold themselves responsible for opinions expressed by correspondents.

Since *Technique* has justappeared this seems a propitious time to me for calling your attention, and possibly through your colums the attention of your readers, to one defect of the present system of editing this worthy publication. Every year a new board comes in without any previous experience, except such as may be gathered from work on the Institute's periodicals or on some school annual. This board has to build up an efficient organization and to get out a book equal to, if not better than, those of former years. Is it not possible to substitute for these annual spasmodic productions of each new class some continuous and connected form of organization which will enable each new board to profit more fully by the successes and to avoid more effectually the faults of former classes? This could be done without allowing the book to lose its individuality as a publication of the Junior class by having one or more Sophomores as roustabouts for each successive Board. These men would have no vote on the board and their duties would consist simply of helping the editors to the end that in the following year they would be in a position to advise and to govern the efforts of their own class when it came to undertake this work. These suggestions are somewhat tentative, but the matter truly requires some consideration from all concerned.

STUDENT.

The grand event of Junior Week at Boston University last week was the Junior Prom held on Friday evening. There were two hundred and fifty couples present, many of the guests being from other institutions, as Harvard, Tufts, Wellesley, Radcliffe, Smith and Tech.

DEVILED HAM

When you strike off into the woods, see that in your pack basket or in the bow of your canoe you have a sufficient supply of Underwood's Original Deviled Ham. A small can and a couple of slices of bread, or, better still, cold toasted bread (toast should be buttered after it has become cold), make a satisfying and delightful lunch. In camp it is a way indispensable, either for emergencies or the regular table.

It may be bought at any good grocer's, but be sure you see on the can THE LITTLE RED DEVIL. There is only ONE Deviled Ham—*Underwood's Red Devil Brand*. All others are imitations, but imitations in name only, as the goods commonly labeled and sold as potted or deviled ham, made as they are from the odds and ends of the packing house, are no more like *Underwood's Original Ham* than chalk is like cheese.

Our Book contains a lot of unique and practical receipts. We will send it FREE.
